

STORYLINE INTRODUCTION OUTLINE

eCreators have been using the Storyline tool since the first version and have a breadth of experience in providing Articulate Storyline Training. The training course is led by a trainer specialising in the use of Articulate Storyline, and provides participants with the skills necessary to create professional, interactive elearning courses.

Students are led throughout the day to the discovery, use and power of Articulate Storyline while developing interactive content via a simulated course.

Course Duration:

1 Day

Who Should Attend:

Our Articulate Storyline courses are open to all members of the public. In the past we have trained retail, defence forces, government and private organisations in the use of the Articulate Storyline. You may be a teacher, a facilitator an instructional designer or be from a range of other disciplines, we can cater for you.

Prerequisites:

You should have a level of comfort with computers in general and Microsoft Office packages as Articulate Storyline has a similar look and feel to the latest version of Office.

What will you Receive:

Apart from a great course you will also receive:

- Free USB flash drive with course files
- Course manual – yours to keep
- Certified Expert Trainer
- Small class size
- Includes Lunch
- Morning & afternoon tea or coffee if you prefer
- 3 Months post course support
